Ammonium Sulfate Caprolactam Grade Naturally

Name: Ammonium Sulfate Caprolactam
Grade Naturally

CAS No.:7783-20-2

Molecular Formula: (NH4)2SO4

Properties: White crystal

Specification:

Appearance	White crystal
Nitrogen	21.0%min
Moisture	0.50%max
Free Acid	0.03%max
Ferric	0.007%max
Arsenic	0.00005%max
Heavy Metal	0.005%max
Insoluble Matter	0.01% max

Usage: It is used for general soil and crops.make foliage vigorous growth,improve fruit quality and yield,enhance crop resistance to disasters,can be used as basic fertilizer,fertilizer and seed fertilizer.

Packing: 25kgs or 1000kgs or as client's request.
